

Benjamin Marte

 Tampa, FL 33635

 551.482.2807

 benmarte@bmv-interactive.com

Dear Recruiter:

I am attaching my resume along with this cover letter for the position of Interactive Media Developer. With this I hope you can have a better idea of my professional background and the type of companies I have worked with.

Throughout my career I have worked with many FDA, OSHA and ISO regulated companies on providing quality service and expertise. I have created Computer Based Trainings (CBT) and websites based on clients User Requirement Specifications (URS) and Functional Requirement Specifications (FRS). Due to my multitasking and fast learning ability I have acquired different skills that allow me to perform many roles in my workplace. In addition you'll find me to be time efficient, dedicated, trust-worthy and responsible.

Currently I am seeking an association with a company that can benefit of my expertise, excellent organizational and communication skills, an outstanding work ethic and the ability to work equally well in both team oriented and self directed environments.

I would welcome an opportunity for an interview so we can further discuss my qualifications and candidacy in further detail. Thank you for your time and consideration.

Sincerely,

Benjamin Marte

P.S. Feel free to contact me at (551) 482-2807 so we can coordinate an interview where I can show you some of my work samples which I cannot display online due to confidentiality agreements

Interactive Media Developer

12 years of experience creating multiple training platforms & technical documents for pharmaceutical companies. Combine creative, artistic and technological knowledge to develop rich interactive online and offline experiences for print, web and multimedia projects.
